The WMP300N module provides one 2.4GHz wireless interface suitable for connection to wireless networks. The module supports protocols that use Ethernet for LAN access.

☐ Top

The screenshot shows the "Physical" tab of the PC0 configuration window. On the left, a list of modules includes "WMP300N". The main area displays a "Physical Device View" of the WMP300N module. Below the view are buttons to "Customize Icon in Physical View" and "Customize Icon in Logical View". A text box at the bottom describes the module's capabilities. A "Top" button is at the bottom left.
